

High-quality dual-channel upper track designed exclusively for the MUV wardrobe sliding system S1. Engineered from robust extruded aluminium, this integrated top-mounted profile ensures precise alignment, structural stability, and smooth, reliable guidance for multi-door sliding configurations.

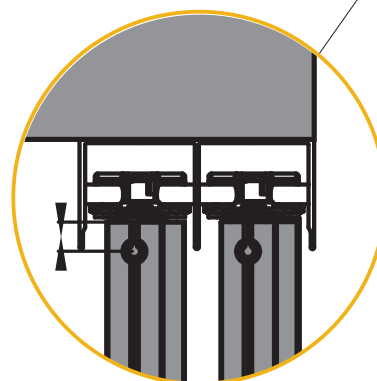

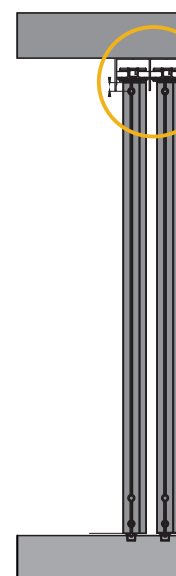

Description

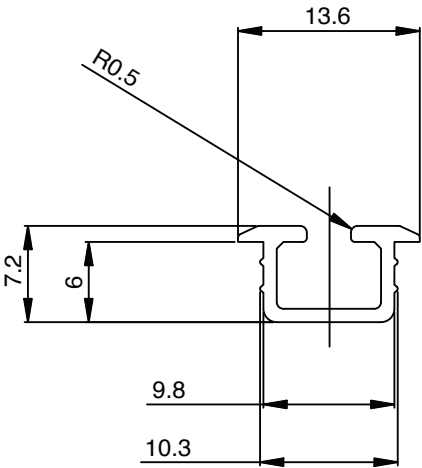

Overall size (WxH):	83.4 x 39 mm
Material:	Aluminium
Usage:	Upper track / Top guidance

Item ID No.

Finish/Colour	Length mm	Cat. No.
Anthracite	5000	BG-921.16.360

High-quality single-channel lower track designed exclusively for the MUVE wardrobe sliding system S1. Engineered from robust extruded aluminium, this integrated bottom-mounted profile ensures precise alignment, structural stability, and smooth, reliable guidance for multi-door sliding configurations.

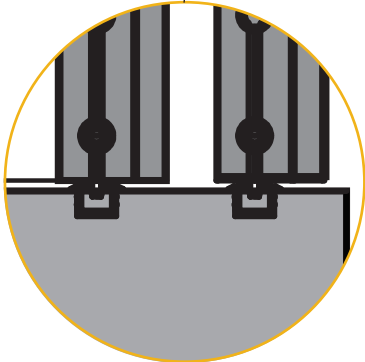

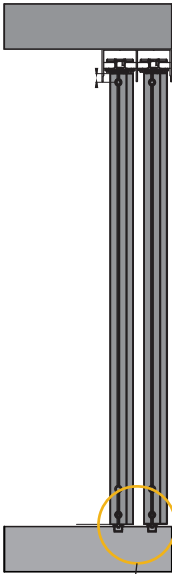

Description

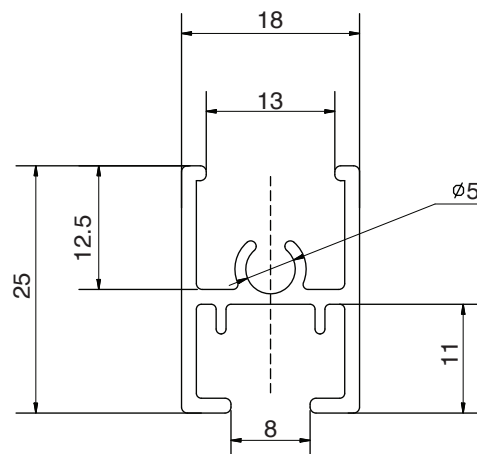

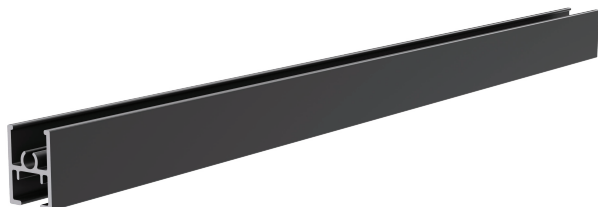

Overall size (WxH):	13.6 x 7.2 mm
Material:	Aluminium
Usage:	Lower track / Bottom guidance

Item ID No.

Finish/Colour	Length mm	Cat. No.
Anthracite	5000	BG-922.16.360

High-quality upper profile designed exclusively for the MUVE wardrobe sliding system S1. Engineered from robust extruded aluminium, this profile is fitted directly to wooden or glass door panels, providing secure fixation, enhanced structural stability, and precise alignment for smooth and reliable sliding door operation.

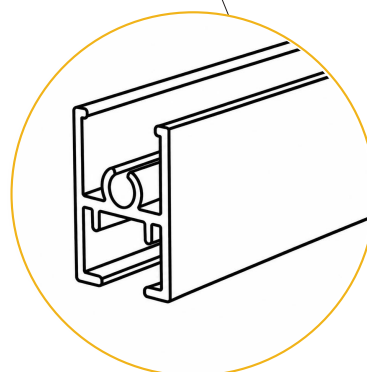

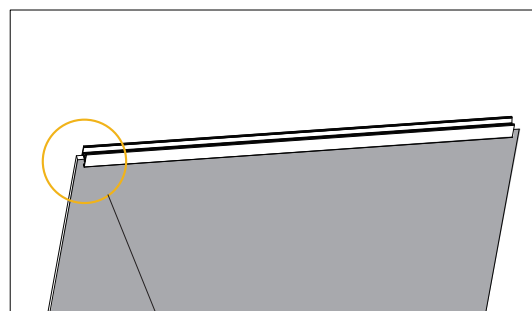

Description

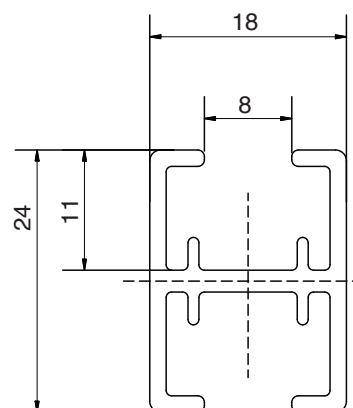

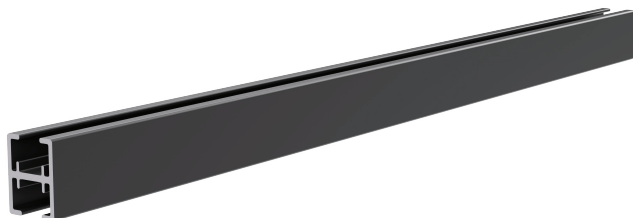

Overall size (WxH):	18/8 x 25 mm
Material:	Aluminium
Usage:	Upper door profile
Suitable for:	Wooden and glass door panels

Item ID No.

Finish/Colour	Length mm	Cat. No.
Anthracite	3000	BG-923.16.360

High-quality middle profile designed exclusively for the MUVE wardrobe sliding system S1. Engineered from robust extruded aluminium, this profile is used to connect wood and glass door panels, ensuring seamless material integration, secure fixation, and stable sliding performance.

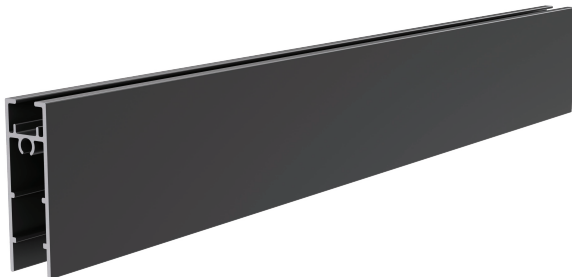

Description

Overall size (WxH):	8 x 24 mm
Material:	Aluminium
Usage:	Middle door profile
Suitable for:	Wooden and glass door panels

Item ID No.

Finish/Colour	Length mm	Cat. No.
Anthracite	3000	BG-924.16.360

High-quality lower profile designed exclusively for the MUVE wardrobe sliding system S1. Engineered from robust extruded aluminium, this profile is fitted directly to wooden or glass door panels, providing secure fixation, enhanced structural stability, and precise alignment for smooth and reliable sliding door operation.

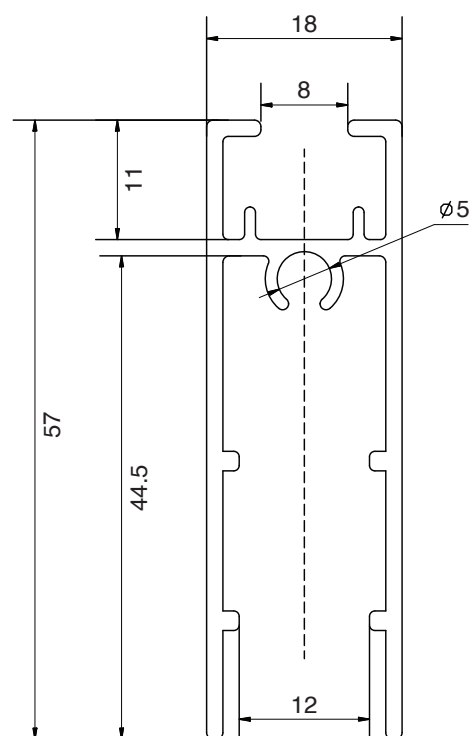

Description

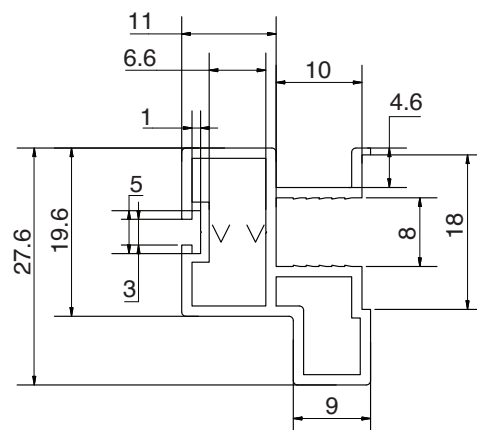

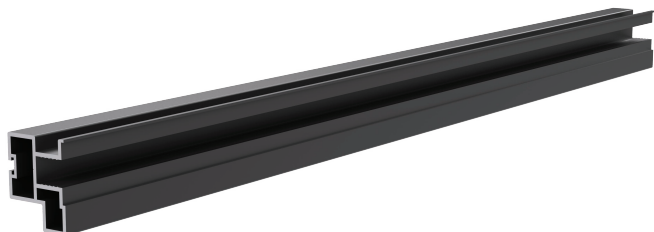

Overall size (WxH):	18/8 x 57 mm
Material:	Aluminium
Usage:	Lower door profile
Suitable for:	Wooden and glass door panels

Item ID No.

Finish/Colour	Length mm	Cat. No.
Anthracite	3000	BG-925.16.360

Vertical handle profile for the MUVE wardrobe sliding system S1, made from extruded aluminium and suitable for both wooden and glass panels, providing a comfortable grip, secure fixing, and stable sliding performance.

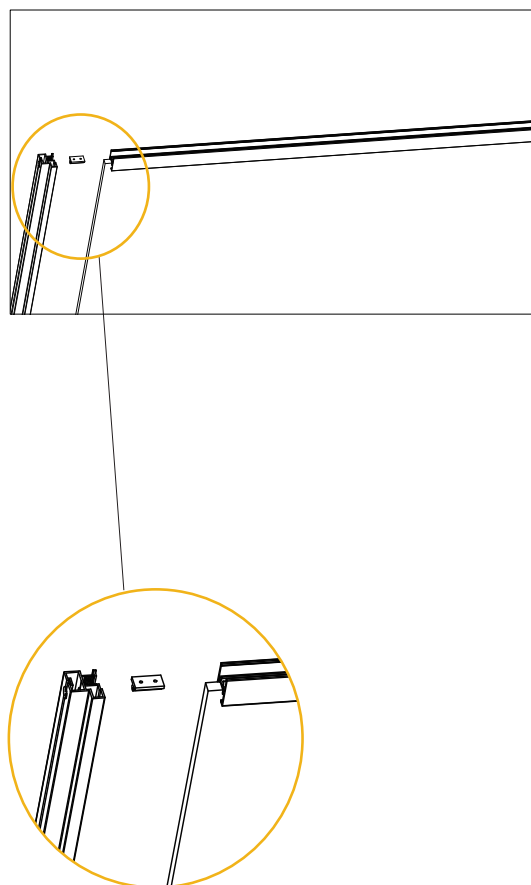

Description

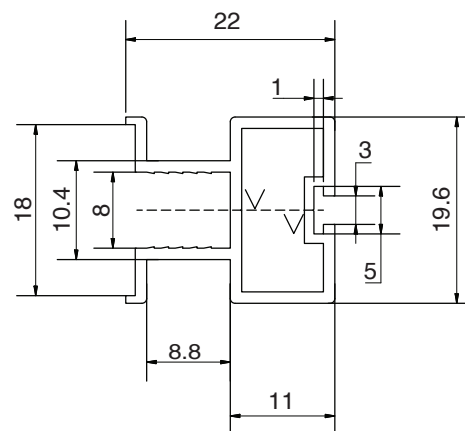

Overall size (WxH):	8 x 27.6 mm
Material:	Aluminium
Suitable for:	Wooden and glass door panels

Item ID No.

Finish/Colour	Length mm	Cat. No.
Anthracite	2800	BG-926.16.360

U-shaped vertical handle profile for the MUVE wardrobe sliding system S1, made from extruded aluminium and suitable for both wooden and glass panels, providing a comfortable grip, secure fixing, and stable sliding performance.

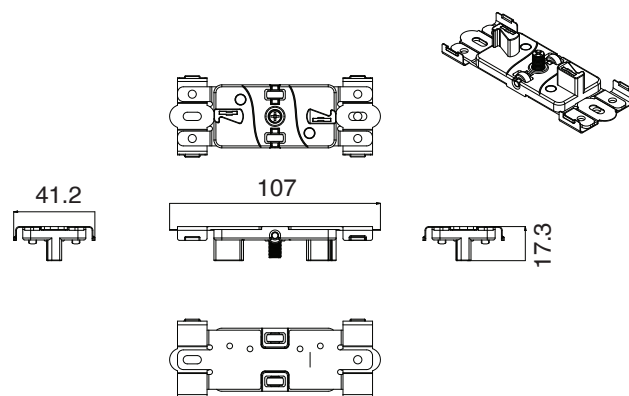

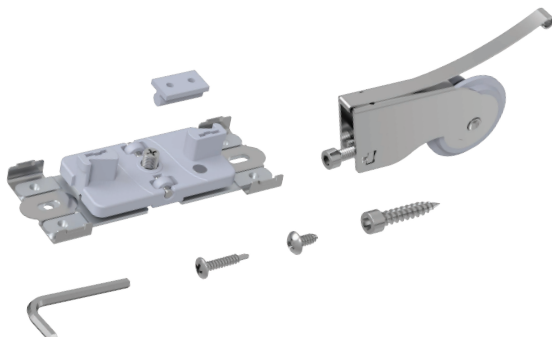

Description

Size (WxH):	8 x 19.6 mm
Material:	Aluminium
Suitable for:	Wooden and Glass Door Panels

Item ID No.

Finish/Colour	Length mm	Cat. No.
Anthracite	2800	BG-927.16.360

2-door sliding fitting set designed for the MUVE wardrobe sliding system S1, engineered to ensure smooth, quiet, and reliable operation of two sliding door panels, providing durability, stability, and long-lasting performance.

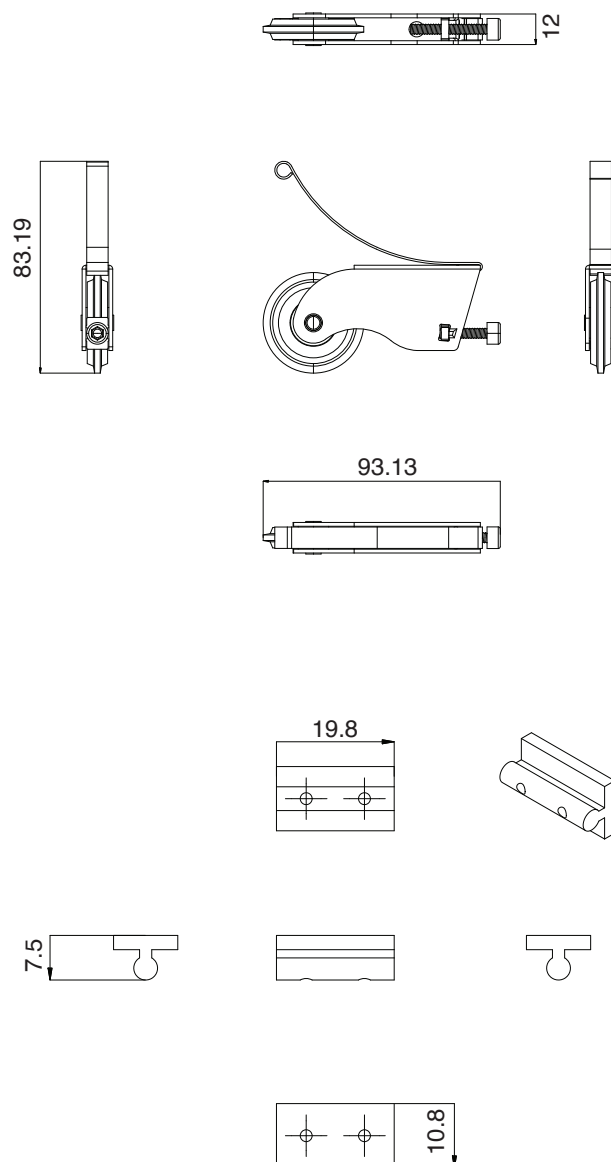

Description

Components: Lower runner, damper stopper, T-shape support bracket, allen key, hex screws, milling tail screws, ST4*10 screws

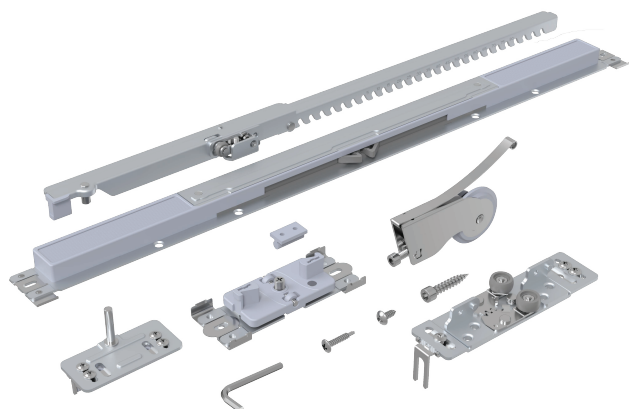

Usage: BG-929.16.XXX

Item ID No.

Cat. No. BG-928.16.000

3-door sliding fitting set designed for the MUVE wardrobe sliding system S1, engineered to ensure smooth, quiet, and reliable operation of two sliding door panels, providing durability, stability, and long-lasting performance.

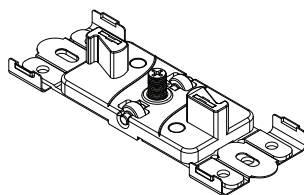

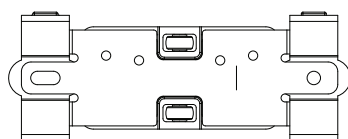

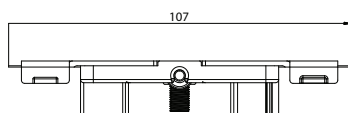

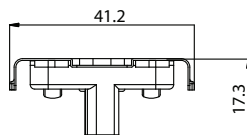

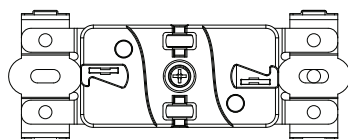

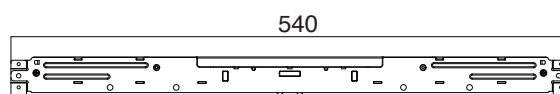

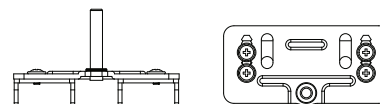

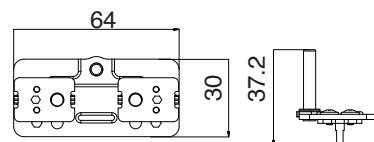

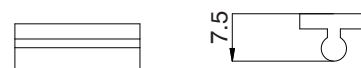

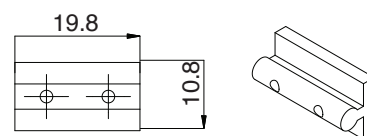

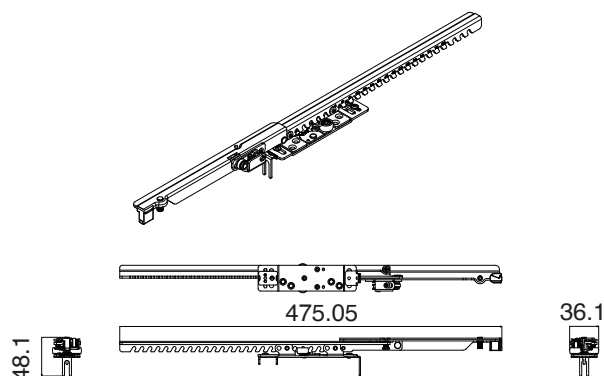

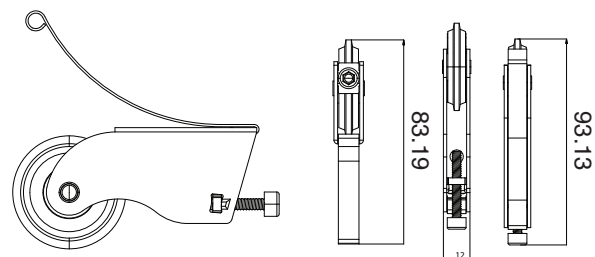

Description

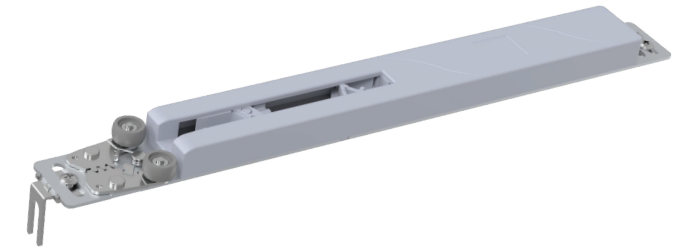

Components:	Lower runner, damper stopper, anti-collide stopper/connector, anti-collide stopper, middle-door stopper, middle damper, T-shape support bracket, allen key, hex screws, milling tail screws, ST4*10 screws
Usage:	BG-931.16.XXX

Item ID No.

Cat. No.	BG-930.16.000
-----------------	----------------------

2-door dampers set designed for the MUVE wardrobe sliding system S1, engineered to ensure smooth, quiet, and reliable operation of two sliding door panels, providing durability, stability, and long-lasting performance.

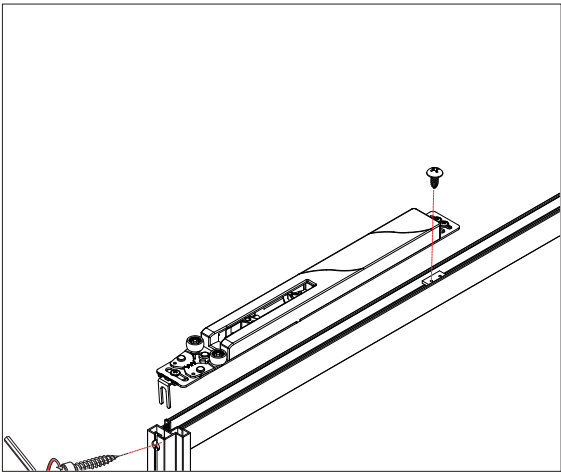

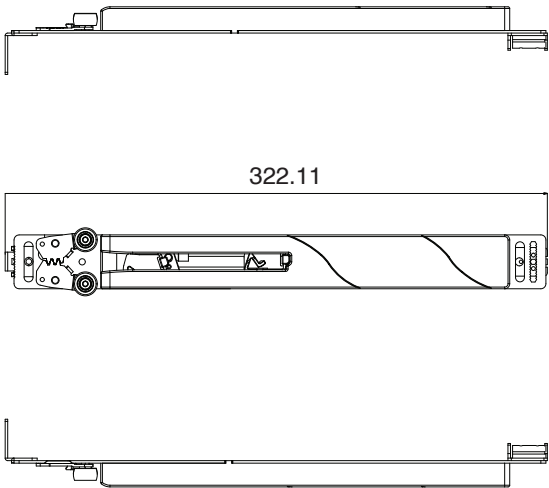

Description

Components:	4 x dampers
Usage:	BG-928.16.000

Item ID No.
